### The Bombardment Yesterday Diminished Turkish Gunfire.

(By Times Special Cable.)

London, March 11.—The British Admiralty continues to remain silent concerning the operations in the Dardanelles, but reports given out in France as for orth that armored ships have penetrated the instreem of the straits. It is not considered librally, however, that the attack will be present until land forces occupy both sides of the straits. That such land forces are almost ready for this sak, is indicated by the report that a great French transport fleet has been sighted off Malta.

Paris, March 11.—A vigorous bombardment of the fortifications in the Dardanelles, principally by Frunch warships, was continued yesterday (Wednesday), according to a Tenedos despisable to the Statis. A heavy fog prevented avisters from learning the results of the firs from the fleet, but the reply from some of the Turkish batteries slackened perceptibly.
